

2016 Glen SCCA May Day season opener @WGI North Paddock

Allan Kintz and myself were the first to arrive to the North Paddock area this morning only to be greeted by near gale force winds including driving rain. We started setting up the tent and timing equipment when a couple of others showed up to lend a hand. As 8:00 approached and no one else had arrived yet we decided to delay opening registration until we had enough participants to actually hold an event. Never the less 17 brave souls showed up to test the driving skills against the elements and our autocross course.

The weather did improve as the morning quickly turned into the afternoon. Too say everyone had plenty of runs would be a mild understatement. Though out the day two run groups were able to put down 18 runs per driver. We had some close battles in BS, ES, STX, and SM. The rest of the classes represented ran uncontested. The real battle to watch was in PAX. Only 1.803 seconds of separation in the top 10 competitors. Check out results pages for all the details. I would like to thank everyone that helped made this event successful. It may not have been profitable but as long as we don't have too many like this the season will be fine. Be sure to come out to our next event at The Elmira Domes facility in 3 weeks. See you then.
